LETS Cellular Body Wire

COVERT CELLULAR WIRE AND CALL/TEXT RECORDING

NOW WITH HD QUALITY VOICE

Recording Quality – The LETS© system produces Unmatched, clear digital archival quality recordings in .wav file format. Each recording has a digital file signature that proves the recording has not been altered.

Investigative Integrity – LETS© will allow the projection of any caller ID(Spoofed) desired by the investigator. LETS© can capture all blocked caller identifications.

Selective Monitoring – Should circumstances dictate, LETS© can be easily programmed to eliminate or accept specific calls based on caller identification. This feature will ensure no cross contamination of recordings and records.

Secure – LETS© usage is difficult to detect, trace or be discovered by targets. The phone switch does not permit unauthorized access. The encrypted web server has a high level of security. All features are password-protected and all recordings reside in a secure facility.

Record calls, texts, and pictures on any phone

Use your own number or a Burner Number

Use any phone as an HD Cellular Body Wire with Cover Team

Cover Team can talk

Unlimited usage included

Instantly spoof any number for pretext calls
